REGULAR BEISEKER FIRE DRILL WITH NEWLY PURCHASED EQUIPMENT

BEISEKER — In last week's issue of this paper the town council informed you of the demonstration of the recently purchased fire engine. Besides the engine they also purchased one axe, one mask, one aluminum ladder and four drums of Firedeath Chemical. They have also ordered a fire siren, and plans are under way for a building to house the fire engine.

Although many assisted with the demonstration, the temporary Volunteer First Dept. Brigade are as follows: Fire Chief, Lou Brosteaux; engine control men, Carl L. Schmaltz and Joe Hagel; nozzle and hose men, Fred Meidinger, Felix P. Schmaltz, Fred Lavoie, Bill Ternes and Jack Decaire.

When the proper set-up is made, there will be regular fire drill.

Wild Mustard Control

By W. S. BACKMAN

Field Supervisor, Agricultural Service Board

Each wild mustard plant which is allowed to mature this summer may produce up to 10,000 seeds. Buried seeds will remain alive for many years. These will germinate and produce new plants as soon as they are brought to the surface by cultivation. Seeds rarely germinate below two and one-half inches in the soil. As all the seeds are not brought to the surface in summerfallow operations it is not an effective means of eradication.

A combination of cultivation, competitive crops and spraying with 2, 4-D is the most effective way to clean up a wild mustard infestation. In this area, where it is necessary to maintain a trash cover, some summerfallow fields still show mustard infestation. The implement that is being used, especially in damp soil, and the way it is operated does not always give a satisfactory weed cut. Spraying with 2, 4-D, along with the summerfallow operations, will assist in weed control. It can reduce the number of operations necessary. This will be helpful in the conservation of moisture.

The new Chemical Weed Control Wall Chart, available to every farmer at the municipal office, contains a picture showing a mustard infested grain field half treated with 2, 4-D. The sprayed part of the field is clean. The rest of the field is yellow with mustard. Every mustard infested grain crop can be cleaned 100 per cent by the use of a very light application of 2, 4-D. Mustard is a highly susceptible weed.

In this district the edges of grain fields and many fence lines have a dirty streak of yellow showing at this time. This can be changed almost over night by the use of 2, 4-D. Inexpensive attachments are available for every make of field sprayers for roadside and fence line spraying. A short boom with one or two nozzles can throw the spray from the shoulder of the road to the edge of the grain field. This will control other weeds along with wild mustard.

The most striking example of wild mustard control is in the fall rye fields. They are especially free of weeds of all kinds. Competitive crops, shallow cultivation, and 2, 4-D wisely used will eventually eradicate wild mustard. It must be continued over a period of years for successful control. Wild mustard is not a serious problem to those who want to get rid of it. Now is the time to spray for wild mustard.

Knights Of Columbus Hold Charter Night

BEISEKER — The Father McQuaid Council, No. 3398, of the Knights of Columbus held their Charter Night Banquet Sunday, June 24, in the Beiseker Memorial Hall with 98 knights present. The banquet was catered to by the Beiseker subdivision of the Catholic Women's League.

Visiting knights were from Calgary, Rockyford and Red Deer Councils. Also knights from Three Hills and Carstairs, including Grand Knights Dr. Patterson, E. Feser and Jos Comessotti, of Red Deer, Rockyford and Calgary. Visiting Fathers, J. Q. Killen and Philip Tessier of Rockyford and Carstairs.

Toastmaster for the evening was Brother Matt Schmaltz, who proposed toast to the King, and called on Jerry Schissel, Lecturer, to propose toast to the Pope. Address of welcome was given by the Grand Knight Tony Hagel.

At this time Miss Rose Marie Wald gave an accordion selection, accompanied by Mrs. L. Brosteaux, which was applauded very heartily.

The Chaplain, Rev. Fr. Tennant, gave a splendid address on the Father McQuaid Council, which was followed by the Introductions of the members.

Mrs. Brosteaux then supplemented the program with a delightful piano solo.

Brother Ernest R. Lamm gave a very interesting address on "The Western Parish," which was followed by the important part of the evening's program, the Charter Presentation by District Deputy Frank J. Trainor. State Deputy Thos. McKenna also addressed the gathering. The evening closed with "God Save the King."

"Do Not Pick Flowers" is a common sign in Canada's parks. But in Ireland they read more subtly. "Let it be said of these flowers that they died with their roots on."

GEORGE CRUICKSHANK, Liberal M.P. for Fraser Valley, says margarine makers are trying to ruin Canada's dairy farmers. He labelled as "audacity" the appeal of one margarine producer to have duties lowered on several of the imported ingredients of margarine.

ELIZABETH TAYLOR is ornamental on any beach and almost any other place one might mention. She recently completed "Love is Better Than Ever" at MGM in which she plays the role of a young ballet instructor. Let's dance!

Young and Old Enjoyed United Church Picnic

The United Church picnic held last Sunday at Art Berreth's farm was a huge success. Art has a splendid grove of trees for holding picnics, and the flowers were grand. Races were held for the children, and softball games for the grown-ups — married against the single. Everyone seemed to have had a very enjoyable outing.

Mr. and Mrs. Magnus Miller went to Fox Willow, Sask., for the funeral of Mr. Miller's brother, who passed away recently.

Rose Marie Meidinger was accidentally struck in the ear by a football at school.

Mrs. Charlie Lohrke entertained last Wednesday in honor of her daughter-in-law, Vera, who is leaving this week for California with her daughter Anne, to visit her uncle and aunt. This aunt is Mrs. Lohrke, Sr.'s sister.

Mr. Matt Schmaltz and the Field Supervisor, Mr. Backman of Three Hills, attended an Agricultural Service Board meeting in Edmonton recently.

This week we just have one ball game to report, due to Wednesday's game being rained out. This game was played at Irricana Sunday, June 24, with Irricana quitting at the end of the sixth, when Beiseker were ahead 36-13.

Mr. and Mrs. Baltzer Schleppe and family, his aunt, Mrs. Katie Schleppe, and his sister-in-law, Mrs. Francis Schleppe have gone to Kelowna for a holiday to visit his parents and relatives.

Leo Schmaltz, the Census Commissioner, reports that although the roads and weather conditions have been not at all favorable, the enumerators have made very good progress, and the census is about 75 per cent completed.

Peter Schmaltz is a very observant man when he goes to Calgary shopping, but does not relate his own purchases, but possibly his wife does it for him so as to avoid mistakes! His son Peter emptied his pocket book by

\$25 less when he had to have his glasses changed.

Another shopper in Calgary was George Schmaltz, Sr., who was exchanging some shirts, size 18, but we are still left in doubt as to what size he was getting this time!

Anton Hagel, Sr., has had all his teeth extracted recently, and when you see Anton wearing a broad smile once again you will know that he is off his liquid diet.

Mr. and Mrs. J. H. Schmaltz and Lima returned last Sunday from Winnipeg, where they attended the wedding of their daughter, Irene, to Mr. Vanstone of Winnipeg. Mr. and Mrs. Schmaltz had enough of travelling over bad roads with their new car, so they decided TCA was the fastest and best way to travel.

Mr. and Mrs. L. L. Schmaltz were invited to the Bowness Lions Ladies' Night, Saturday, June 23, when L. L. Schmaltz, the International Councillor, presented some Bowness members with awards for good service in their club. Mrs. L. L. Schmaltz was pleased to be presented with a Lions pin from the Bowness club.

Mrs. Frank Schmaltz, her sister, Marie, and Betty are now in Boston, and enjoying their holiday very much except for Marie who found out that the measles has no respect for holiday fun.

Mr. and Mrs. Frank Selzler and Bernice left for Medicine Hat, where they will attend the wedding of their cousin. Bernice will be bridesmaid at this wedding.

Level Land Music Pupils Write Exams

LEVEL LAND — A number of Level Land music pupils wrote Toronto Conservatory of Music examination in Calgary June 25. The young people who sat for the test were Glenda Gimble, Geraldine Roth, Harry and Marjorie Leiske.

"OUR HALF ACRE"

Grasshopper control is now necessary in parts of this M.D. Aldrin is a very effective poison which kills grasshoppers both as a stomach poison and a contact poison. It is available at your Municipal office and at the bait mixing stations. In most cases the cost of this material is less per acre than that of other poison. Aldrin also possesses the advantage over other recommended grasshopper poison in that it has direct contact action. All grasshoppers which are directly contacted by spray or eat the treated vegetation will cease feeding at once and will be killed within 24 hours.

Aldrin is applied by weed sprayers and can be mixed in the tank with 2, 4-D. The recommended rate for using Aldrin spray is 2 ounces of technical Aldrin per acre. This means 2/5 pint of emulsifiable concentrate diluted in that amount of water for which the sprayer is calibrated to spray per acre. The 2-oz. rate for early spraying can be increased to 2 1/2 ounces when the hoppers are fully grown.

Outbreaks of grasshoppers have been reported east of Trochu, west of Swallow and in the Ghost Pine Creek area. Poison should be applied in the early stages while the hoppers are still small and in their hatching area. It will save time, effort and money.

1. Aldrin is a poison and must be kept away from feed or food products.

2. It is extremely hazardous if swallowed, inhaled or absorbed through the skin.

3. Do not get in eyes or skin. Do not breath vapor fumes or spray mist. Wash thoroughly with soap and warm water immediately after contact with Aldrin.

4. Keep Aldrin locked up and away from children.

5. Aldrin is combustible. Do not store near fire or open flame. Do not smoke while handling.

6. Keep livestock away from treated vegetation for at least two weeks after spraying.

7. Change clothing after spraying.

8. Antidote: Call a doctor immediately.

In case Aldrin is swallowed give a teaspoonful of salt in a glass of warm water. Repeat until vomit fluid is clear. Keep prone and quiet. If skin is contacted wash at once with soap and water.

DON'T TAKE CHANCES...
USE ALDRIN WITH CARE.

Beiseker Cancer Drive Totals \$240

BEISEKER — The Cancer Drive sponsored by the Beiseker Lions Club, with Mr. Peter Schmaltz, as campaign manager, was very successful with \$240 remitted to the Calgary office last week.

The Lions Club wish it to be understood that just because they sponsored this drive, for the cancer diagnostic and treatment services, they are not receiving any funds by so doing, and should receive some appreciation of their help, and not criticism instead. This is one of the many little ways that the Lions Club help in community efforts.

Mr. Schmaltz wishes to thank all who helped in this worthy cause, and says that he still has some pamphlets on "Information Relating to the Diagnosis and Treatment of Cancer," and anyone who would like to have one may have one as long as the supply lasts.

EDITORIAL PAGE

Canadian Unity

This year Canadians from coast to coast are being asked to focus their attention for the week of June 24th to July 1st on the state of the nation's unity.

The idea of a Week of Canadian Unity has been conceived and is being sponsored by the French Canadian Weekly Newspapers Association and the Canadian Weekly Newspapers Association.

Canadians have never been too conscious of their own unity; have been too prone to think of themselves in terms of the provinces in which they live, of the ethnic groups of which they are a part or of the language which they speak. Believing that Canada is more unified than Canadians realize, the two great newspaper associations are sponsoring this week to bring home to the people of this nation the fact of Canadian unity.

In any land as far flung as Canada there are bound to be sectional differences but the Canadian democratic way of life, the Canadian conception of freedom of the individual, Canadian pride in the achievements of this youthful nation surpass infinitely any differences that may exist.

Canadians do not know too well their own story and are better acquainted with the historical figures of Britain, France and the United States than they are with the great men of their own past. A quiz, for instance, on the Fathers of Confederation would keep most Canadians guessing.

If Canadian Unity Week accomplishes only two things—impresses Canadians with the astounding degree of unity achieved during the short 84 years since Confederation and convinces Canadians of the necessity of knowing each other better if the unity of the nation is to be strengthened—Canada's weekly newspapers association will have attained their objective.

Canadians must work at this task of strengthening the unity of the nation. It requires the best thought and effort of every citizen. It is a year round job.

On World Map

In July Rev. Fr. McGrane will set sail for England and France on board a trans-Atlantic steamer in company with four members of the Lac La Biche sea cadet corps. The boys will be good-will ambassadors for, not only Lac la Biche, but Alberta and Canada as well. They will proudly sail Exeter II along the rivers and canals of England, across the English Channel from the "White cliffs of Dover" and up the Seine to Paris.

Father McGrane, who has complete command of both English and French, is fittingly enough taking boys who represent four nationalities in his crew, representative of four races making up a good part of the population of cosmopolitan Lac la Biche. They are English, French, Ukrainian and Italian.

This event is unique for any Canadian town. It will bring international distinction to this growing community on the shore of "Lake of the Elk" in north-eastern Alberta—distinction citizens could not buy with any amount of money.

Ironie Iranian Crisis

The British government, beset by an unholly urge to socialize industry in the homeland, is in a funny position. It is disputing the right of another sovereign country to socialize its principal industry. Mr. Attlee and his government with one hand is restraining the British Conservative party from tearing down his socialization of British railways, iron and steel industries. And with the other hand he is trying to restrain Persia (Iran) from forcefully taking over its wealthy oil industry. At home in Britain the Labor party is socialist. But abroad in Iran it is a 53% capitalist shareholder in one of the world's most lucrative businesses.

We know perfectly well that Soviet Russia may gain control not only of the oil industry but of the whole country of Iran if the British are forced out. But how do the British socialists reconcile their domestic and foreign philosophies of government?

The Bible Says:

"Behold, the hour cometh, yea, is now come, that ye shall be scattered, every man to his own, and shall leave me alone: and yet I am not alone, because the Father is with me."—St. John, 17:32.

Divorce By Parliament

By T. W. PUE

During the past few weeks a great deal of attention has been paid to the matter of parliament, in Ottawa, having to concern itself with Divorce petitions coming from Quebec and Newfoundland. I have received an outline of the divorce situation from Senator Gershaw, who has been a member of the divorce committee for several years, and in the words of our own Alberta Senator, J. W. Stambaugh, "is well qualified to speak on the subject." These are Senator Gershaw's own remarks:

T. W. PUE

DIVORCE

"Many articles on divorce have appeared lately in various publications and there is a widely held view that the Canadian procedure is dealing with these unfortunate cases could be improved.

"An old Quebec law stated that marriage could be dissolved only by the death of one of the partners. This was confirmed by Confederation, so there are no divorce courts in Quebec. There are none in Newfoundland. In all the other provinces, the Supreme Courts have jurisdiction.

"An applicant for divorce from a province where there is no court dealing with divorce, can petition the high court of parliament for a relief.

"In Nova Scotia, cruelty is possibly a ground for divorce but in all other parts of Canada, Adultery is the only ground upon which a divorce is granted.

"In Eire and South Carolina there are no divorces, but most other countries recognize divorce for various causes. In New Zealand there are eleven grounds for divorce and, in U.S.A., a very undesirable situation of loose divorce laws seems to exist.

"Every divorce granted by the Canadian parliament means a special Act and goes through the regular procedure.

"Petitions are first referred to the Senate Committee. Witnesses are heard and barristers present the case as in a court of law. Any member of either House is welcome to attend these hearings.

"The children are always asked about but the committee have no power to enforce conditions regarding their care. A divorce does not relieve any parent of the legal duty of supporting a child, but if the parent is no good or disappears, laws cannot be effective. Many of the married people coming to the committee have no children. In other cases, the children have grown up or are well cared for by one parent or someone able to do it.

"The committee really go into the cases very thoroughly and the chairman is an experienced lawyer, so that the rules of evidence are observed. If the case is recommended—and a lot of them are not—the evidence is printed and every member of both houses get a copy. It is now a bill and must pass 3 readings in the Senate. Then it goes to the House of Commons where it must pass the 3 readings on different days and be investigated by the Private Bills Committee. This committee can call witnesses or hear argument by Counsel.

"A fee of \$210.00 is charged but, in cases of people of low income, the fee is reduced sometimes to \$50.00.

"Every one of these cases is a domestic tragedy. It is often said that divorce breaks up the home, but these homes are already broken—and badly broken—before a divorce is applied for. There are many very sad cases. There is cruelty, drunkenness, desertion and shame in many cases. The writer has urged that adultery should be a crime under the law, as it is a moral crime. In many cases, co-respondents will, under oath, say almost boastfully and without a blush of shame, that they have committed adultery with the respondent."

Senator Gershaw could not get any support for such a measure but there would be fewer divorces if adultery were punishable by law in all Canada, as it is in one province. Some get a divorce very easily by proving this crime, while others much more deserving cannot get relief from intolerable conditions.

The petitioner cannot get freedom if there is any collusion, condolence or connivance. These terms are always explained to the witness and efforts are always made to see if there is any chance of reconciling the parties who have strayed so far apart.

Such is Senator Gershaw's informative explanation of how Parliament handles divorce. The question remains with us: should our legislators continue to handle divorce cases? Or should a special National court be set up to do it?

Do you have the answer?

Note and Comment

The Chinese Reds, it seems, are not quite so hot as they were in December.

Then there are those who are worried about the possibility of being bitten by snakes.

The 1951 class of graduates are facing a confusing and turbulent world. They'll need everything they learned in school, plus a lot of practical experience, to do their part in setting the world straight.

Voice of the People

"VOX POPULI, VOX DEI"

BASIN STREET BLUES

Dear Sir—I would certainly like to make a trip to Canada, as it's pretty hot down here now. As high as 97 degrees. All the pools and the beaches are open now, so Mr. Pue could enjoy a swim in New Orleans now that it's summer time. I appreciate reading your paper and liked your write-up about New Orleans.

CHAS. K. FAULKNER.

New Orleans, La.

LIVING COSTS

Dear Sir—The cost of living index in Britain, for April, is up five points; in the States, up and up; in Canada, up only one-fifth of a point. Pass the salt, please!

Prairie farmers are to get six cents more for wheat (but still 34c below street price) so the bakers and millers are going to hike bread one cent per loaf, and flour 15 to 20 cents per sack.

TOM POULSOM.

Rochford Bridge.

WHO'S BAD-TEMPERED

Dear Sir—Your paper has lots of news on a wide variety of subjects, but the letters to the editor are the shoddiest feature of the entire paper. I have never, by many yards, seen such a collection of ignorant, unintelligent, and bad-tempered letters. About one in 20 is worth printing, and probably about one in 20 of those printed is worth reading.

Edmonton

E.A.

DRUNK TESTS

Dear Sir—I was sure pleased to hear of the federal government's decision to legalize chemical tests for drunkenness—it is the greatest single contribution to traffic safety since the introduction of the hydraulic brake. For once the police will definitely be able to determine whether a man is drunk. But there is one drawback to the new system. The tests are only optional—not compulsory. Let's hope Ottawa makes them compulsory.

Redwater CAREFUL DRIVER

LOVES FRUIT

Dear Sir—I come from B.C., and although I like Alberta I still get homesick for the mountains and lakes—and most of all, the fresh fruit. American fruit is selling in our stores now at high prices, but just wait till that delicious B.C. fruit gets here in a week or two. Then I'll have a feast!

EX-FRUIT FARMER

Lac la Biche

MEDICAL SERVICE

Dear Sir—That new Trans-Canada Medical Service which Canadian doctors are launching as the answer to socialized medicine may go a long way. I really think that socialized medicine is faulty because people tend to abuse it. However, this is still a capitalistic country, and at least it's good to see the doctor's offering something better in the way of medical service. I contend that although there are many faults in our democracy, it is getting better all the time.

Crossfield

G.L.K.

FIRE PREVENTION

Dear Sir—I am pleased to report to your paper that the Fire Prevention Campaign carried on by Imperial Tobacco Co. last year was quite a success. Signs, radio broadcasts, films, advertising and other methods were used to encourage people to do their part in preventing forest fires. We plan to expand our campaign this year, and your continued support will be warmly welcomed.

Montreal EDWARD C. WOOD

BELIEVING THE BIBLE

Dear Sir—I noticed T. W. Pue's article, "Honesty in the Pulpit", in your paper and it seems to be ridiculous from a standpoint of modern thinking. I cannot see that the Rev. Berry is any more in a quandary than any other hard thinking Christian who is striving to understand the truth. Your statement that he does not believe the Bible is unfair and unworthy of you. Do you believe every last word that had been put in the Bible? Just because you may not believe every word would you like to have someone publish abroad that you disbelieved in the Bible?

Edmonton SUBSCRIBER

TOO MANY FINPRICKS

Dear Sir—The good old fashioned general doctor with his careful diagnosis seems to be a thing of the past. Now all they tell you, is "Bend over Bud," and they whang you with a horse syringe full of antibiotics. Oh, sing a song of streptomycin, pockets full of penicillin. Shoot the aureomycin to me, John, boy, and never mind the cost!

Onoway

DISTURBED

ZOOTERS

Dear Sir—There's only one way to fix the rioting Zooters—put them all in jail.

Week Ending June 30, 1951

Pulpwood Industry Brings Prosperity To Northern Alberta Lumber Districts

A new kind of boom is bringing prosperity to the Alberta Northland, and there's every indication the boom will continue.

Millions of dollars are being spent in the Lac la Biche area as sales of pulpwood to United States paper manufacturers goes on apace.

Entire settlements are being revitalized by the new pulpwood industry. And it's an industry that every man can get into.

Box cars are being loaded daily to be shipped south on the Northern Alberta Railways. From Ed-

monton they are transferred to other rail lines, and find their way into the U.S., bound for paper plants.

DEAD TREES USED

Only dead fire-killed trees are being bought as they are dry and light in weight.

If cutting of live trees took place it would require one year's drying before shipment could be made. This would require more capital than is apparently available—and the demand in a year might go down.

One buyer of pulpwood said his company had spent \$30,000 in one remote district—the Hiking colony. Thousands of dollars are being poured into every district, and trappers, farmers, and loggers are all being kept busy supplying pulpwood to the many buyers.

Liquor and beer sales—always a good barometer of prosperity—

ALTA. STILL IMPORTS OIL

CALGARY, Alta. — (BUP) —The Canadian version of carrying coals to Newcastle could well be bringing oil to Alberta.

Union Oil of California did just that, by moving into the oil lubricants sales field in the province. The first shipments were distributed by independent dealers throughout the province.

have risen sharply in the district recently.

The increased prosperity has spread throughout the entire district, and signs of it are noticeable everywhere.

Alberta Oil Output Shatters Records

A daily average Alberta crude production of 165,724 barrels for the week ended June 11, broke the previous record by more than 13,000 barrels daily. The previous record was 152,895 barrels daily during the week ended May 21.

The record production was up 50,000 barrels daily from the previous week ended June 4, when production was 115,028 barrels.

The increased production resulted from an increased conservation board allowable—156,120 barrels daily for June against 142,530 barrels daily for May.

Production came from 2,307 wells, an increase of 20 over the previous week.

Egg Yolks are used in tanning leather.

MENACING forest and brush fires broke out in northern Alberta this week as the sequel to a period of extremely hot weather. Crews were rushed into the Peace River country to battle the outbreaks. Dull weather and some rain aided the fire-fighters and most blazes are now under control.

Veteran Had Broken Back Doctors Just Tested Head

An Alberta war veteran who suffered eight years of agony is now on the road to recovery after having known pain, poverty and shame.

After he floated down on Sweden one dark night in 1943, Warrent Officer Harry Albert Read of the RCAF wrapped himself in a parachute and went to sleep, happy to have survived the night fighter attack over Berlin.

But Read, a native of Medicine Hat and now living at Vancouver, had no idea of the future he faced.

LIVED IN PAIN

Since that day he has been in pain almost all his waking hours. He has been poor because he hasn't been able to hold a job, and his gratuity cheques have long since disappeared.

After a six months' internment in Sweden, Read was shipped back to England, and then to Canada, where he was discharged at Ottawa.

Just before his discharge, Read began to suffer severe pains. His head would often twitch, and he often had to grab the left hand lapel of his tunic with his teeth to keep his head from flopping over to his right side. After his discharge, he got worse. Often his wife had to dress him.

All this time the doctors told him his trouble was only imaginary. Read lived with the fear his trouble lay in his mind, not in his body.

That's what the doctors told him. It's your mind and not your

twisted body. They told him he would never get well until he forgot about his imaginary ills.

This mistaken diagnosis was kept alive until he was finally X-rayed this spring in a Vancouver hospital. The X-ray revealed he had a broken back.

The matter was brought to light in the House of Commons last week when John Blackmore, Social Credit member for Lethbridge, charged that Read suffered "a most regrettable miscarriage of justice" at the hands of the Department of Veterans Affairs.

LETTER TO LOUISA

Lonesome Reader Looks For Someone To Write To

A reader says he is lonesome and would like to write to
someone and get letters from them, but as he doesn't sign his
name we do not know who he is.

There are many lonesome people
in the world but this column does
not pass on names even if we
have them. The reason for this is
that some unscrupulous people
might take advantage of such a
service to get others into trouble
and unless there was a staff avail-
able for screening undesirable cor-
respondents we feel that more
harm than good would be the
result.

DEAR LOUISA

I have a friend who talks in-
cessantly whether she had any-
thing to say or not. If someone
else is talking, she interrupts the
conversation, even if what she has
to say has nothing to do with the
subject.

We like this girl and she has
many fine traits but this habit of
hers is getting on all of our nerves.
We hate to hurt her feelings but
what can we do about it?

A Friend.

Answer:

I suppose your friend is simply
a grown up child still trying to at-
tract attention. Just like some
children will be bad, if other things
fall, in order to be noticed, some
grown ups will do anything to be
the centre of attraction. They
are usually people who as children,
were accustomed to "showing off"
and cannot bear to take a back
seat now even for a short while.

I do not know what you can do
about such a friend. She is cer-

tain to hold a grudge against
whomever tells her of this fault
and anonymous letters are cow-
ardly things.

You might suggest a rule for
your group of a penalty for those
who interrupt conversations. This
may be hint enough to show her
up a bit.

LOUISA.

The LIGHTER SIDE

His First
"Ever had a motorcar acci-
dent?" queried the insurance
man as he completed the pro-
posal form.
"Well," hesitated Mr. Brown-
son. "I first met my wife in a
garage."

Flaming Youth
A high school youth whose
interest in girls shifted about
every three or four days, was
charged by his parents with
having a very changeable disposi-
tion.
"Not me," replied the lad

Oregonians Visit Level Land

Mr. and Mrs. Huldreich Leiske of Pendleton, Oregon, and Mr. and Mrs. Walter Worth and Myrna Mae Leiske were visiting in this district last week.

The Level-Land School had a parent's day June 21. School achievements were exhibited and the Junior Room put on a play. Lunch was served after the program.

Howard Gimbel and Wesley Berreth have finished their

school term at Canadian Union College and are now home with their parents.

Luanne Sulzle had the misfortune of having her collar bone cracked by accident at the Level Land School. She was taken to Drumheller Hospital Thursday and released Friday evening.

Former residents of this district, Mrs. Jacob Tatz of Vernon, B.C., and her daughter and son-in-law, Mr. and Mrs. Albert Black were visiting the district last week.

Those visiting the S. D. A. Church over the week-end were:

Harvey Bechthold of Calgary, Reg. Huether of Calgary, Doreen Welch of Calgary, Neita and Earl Lang of Strathmore.

Mrs. El Leiske, Jackie and Rodney left last week to take up residence in Calgary.

Phone 1810 (Acme Exchange)

BEISEKER

Massey-Harris No. 33 Oil Bath Mower

The precision-lined cutter bar of the Massey-Harris No. 33 Oil Bath Mower gives free knife action with no binding or clogging.

Light draft is a feature of the No. 33—gears are fully enclosed and run in a bath of oil. Also the bulk of the gear weight is located behind the axle thereby eliminating excessive neck weight and giving a correctly balanced mower. The Massey-Harris No. 33 Oil Bath Mower with these features, is a quiet, smooth working hay cutter that is exceptionally easy on the horses.

See them at your Massey-Harris dealers today!

• Attention GARAGES & SERVICE STATIONS

In accordance with the Vehicles and Highway Traffic Act, passenger cars and motorcycles will be tested and approved before being permitted the use of the highways. Therefore:

YOU ARE INVITED TO APPLY FOR AN APPOINTMENT AS AN AUTHORIZED TESTING STATION

It is not necessary that special equipment be employed, but it is most important that responsible persons in each testing station be satisfied beyond any reasonable doubt as to the safe condition of the mechanism and equipment tested, before affixing the sticker and issuing the certificate of approval to the owner. The maximum fee chargeable by a testing station has been set at \$1.00. The fee is payable by the owner of the motor vehicle and does not include any charges for repairs and adjustments required. The following is a synopsis of the mechanism and equipment to be checked.

BRAKES—

- (a) Check stopping distance
- (b) Examine lines and cylinders for leaks (visual)
- (c) Examine rods and clevis pins for wear

LIGHTS—

- (a) Check headlamps for proper aiming and distribution of light
- (b) Tail and stoplamps must work and show a red light to the rear
- (c) All lighting equipment on car must work

MIRROR—

- (a) Check mirror for proper mounting and clear vision

WINDSHIELD WIPERS—

- (a) Windshield wipers must work properly and clean windshield for clear vision.

HORN—

- (a) Horn must be audible for at least 200 feet

STEERING AND WHEELS—

- (a) Check steering assembly for wear and excessive play
